

*The following information is provided in an effort to promote responsible use of Accelerated Voice Solutions service.*

Accelerated Voice Solutions web based, do it yourself voice broadcasting services gives the subscriber the ability to create, schedule and initiate automated call campaigns via the web. Accelerated Voice Solutions provides the subscriber with web based account control, administration and "Do Not Call" list management features. Accelerated Voice Solutions respects your privacy, and will not monitor your audio messages, read or share database upload information with any third party without your expressed permission unless we believe in good faith that such action is necessary to either comply with the law or properly enforce the Accelerated Voice Solutions terms of service agreement. Accelerated Voice Solutions is a web based do it yourself service. It is the subscriber who causes and initiates the sending of calls, creates the pre-recorded audio message and determines when and to whom calls will be sent. Accelerated Voice Solutions feels it necessary to provide you the subscriber with the following information in an effort to insure that all Accelerated Voice Solutions subscriber calling campaigns are conducted responsibly.

Prior to using Accelerated Voice Solutions make sure you are familiar with any Federal or State Laws that would be applicable to your call campaign.

Be respectful of proper calling time restrictions that would be applicable to your specific call campaign.

Maintain and use the Accelerated Voice Solutions "Do Not Call" list management tools available to you at no charge as part of your Accelerated Voice Solutions service. In the event a recipient makes a request to be taken off your call list, do so immediately and indefinitely. Allowing those on your calling list to be easily removed and avoiding calls to those who do not wish to be called plays a very important role with regard to the initiation of a responsible call campaign.

Follow Federal and State calling time rules and or restrictions.

Clearly state the identity of the caller at the beginning of your audio message and provide proper contact information such as phone number and address during call.

Avoid strings of numbers as it is unlawful to engage two or more lines of a multi-line business.

It is unlawful to send audio messages to any emergency phone lines. For example, 911 numbers, hospital medical service lines, physicians, health care facilities, poison control centers, fire or law enforcement agencies.

Avoid sending unsolicited audio messages to those who will incur charges. For example: beepers, pagers or cell phones unless proper prior permission has been obtain by the recipient.

Avoid sending pre-recorded sales messages to those with whom you do not have a business relationship and to whom you haven't received permission to call.

The Telephone Consumer Protection Act (TCPA) <http://www.fcc.gov>, the Federal Trade Commission <http://www.ftc.gov> and the Federal Communications Commission <http://www.fcc.gov> do not call list registry rules <http://www.donotcall.gov> and various State laws place restrictions on certain types of phone calls. Typically a call may be exempt from the TCPA if the call:

- Is made on behalf of a non-profit organization.
- Is made to a consumer with whom the calling company has an existing business relationship.
- Business to business contact.
- Does not include an unsolicited advertisement, even if the call is made for commercial purpose.
- Is survey work.
- Recipient provides proper consent prior to playing the "recorded solicitation".
